KEYNOTE PRESENTATIONS

A Decade in Cybersecurity: The RH-ISAC Eras Tour

• *Rich Agostino, CISO, Target*

The 2024 Summit opened with a keynote featuring RH-ISAC's board chair, Rich Agostino of Target, discussing the past, present, and future of the RH-ISAC. The presentation paid homage to the last 10 years since the organization's founding, celebrated the collective achievements of RH-ISAC members, and charted a course for a future not defined by the headlines, but by continued innovation and shared success.

### New Faces of the RH-ISAC – Goals, Priorities, & Creating a Culture of Information Sharing

• *Suzie Brown, BISO, Sabre*

• *Kristen Dalton, RH-ISAC (moderator)*

• *Amanda Capobianco, CTI Manager, Richemont*

• *Denise Mamaril, Engineering Director, Nordstrom*

With a decade of community building at the RH-ISAC, we know for certain that welcoming in fresh perspectives and people helps to amplify our collective power and collaboration. This panel discussion featured newer faces of the RH-ISAC who shared their stories and backgrounds, priorities and challenges, and how they're cultivating a culture of information sharing within their organizations.

Closing Keynote: S.E.ing IRL & with A.I. & Defending Against It With Q.I.

• *Jayson E. Street, social engineering expoert and Chief Adversarial Officerat Secure Yeti*

Jayson E. Street, social engineering expert, closed out day one of the conference with an entertaining and engaging presentation that featured tales of how he compromised an entire bank within 15 seconds, how A.I. is being used by criminals to commit crimes in cyberspace, and how human intelligence is our most powerful tool to fight our most powerful tool to fight illicit artificial intelligence
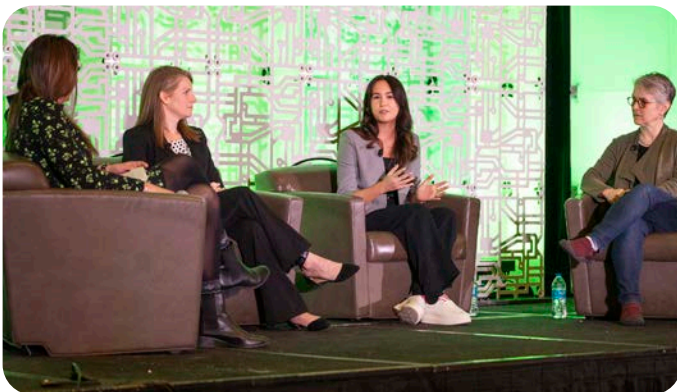

KEYNOTE PRESENTATIONS

Reducing Business Risk with Zero Trust Architecture + AI

• *Sam Curry, CISO, Zscaler*

• *Stephen Harrison, Deputy CISO, MGM Resorts*

Day two of the Summit began with Zscaler CISO Sam Curry providing insights into how zero-trust architecture and AI help prevent ransomware and other attacks while gaining the agility of the cloud. The keynote featured Stephen Harrison, CISO at MGM Resorts, about how he is transforming his organization for a secure, cloud-driven world.

Crypto Crime to Cyberwar: Stories From the Front Lines

• *Andy Greenberg, WIRED, Cybersecurity Writer*

The Summit wrapped up with a keynote featuring a fireside chat with WIRED senior cybersecurity writer Andy Greenberg. He spoke with Mike Fair, CISO at Victoria's Secret, about the evolution of the dark web's cat-and-mouse games and the lessons of catastrophic cyberattacks, from ransomware to geopolitical sabotage, and the developments just over the horizon.
